International application No. PCT/EP 03/14615

V.	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicab	ility;
	citations and explanations supporting such statement	

1.	Statement	,		
	Novelty (N)	Claims	1-16	YES
į		Claims		NO
	Inventive step (IS)	Claims	1-16	YES
		Claims		NO
	Industrial applicability (IA)	Claims	1-16	YES
		Claims		NO

2. Citations and explanations

Subject matter: Control of a hydrostatic gearbox

Prior art: DE-A-41 29 667, which is mentioned in the description, shows a control with the features of the preamble of claim 1.

Problem: To improve the control of the braking operation.

Solution: By means of the characterizing features of claim 1. The control cited in the description and those in the other documents cited in the international search report do not throttle the downstream line as a function of the pressure prevailing therein but base the throttling on the pressure in the upstream line.

The claimed combination of features is therefore not already known. Nor is it obvious from the cited prior art.

Claim 1 and dependent claims 2 - 16 therefore comply with the requirements of PCT Article 33(2) and (3).
